Studia Logica International Conference
Trends in Logic X

Ordered groups and lattices in algebraic logic
the conference dedicated to the memory of
Professor Leo Esakia

Tbilisi, Georgia, September 20–23, 2011

The main topics of the conference include:
- algebraic structures: lattice-ordered groups and residuated lattices;
- non-classical logic: many-valued and modal logics, and
  their applications.

Participants:

M. Baaz, G. Bezhanishvili, N. Bezhanishvili, A. Di Nola, A. Dvurečenski,

D. Gabelaia, M. Gehrke, R. Grigolia, W. C. Holland, M. Jibladze, T. Kowalski,

J. Malinowski, V. Marra, V. Meskhi, F. Montagna, K. Mruczek-Nasieniewska,

D. Mundici, V. Novak, H. Ono, D. Pataria, I. Perfilieva, A. Pietruszczak,

K. Segerberg, L. Spada

Program Committee:
- Revaz Grigolia, Institute of Cybernetics, Ivane Javakhishvili Tbilisi State University, Georgia
- Daniele Mundici, University of Florence, Italy
- Antonio Di Nola, Department of Mathematics, University of Salerno, Italy
- Matthias Baaz, Vien Technical University, Austria
- Jacek Malinowski, Studia Logica and Nicolaus Copernicus University, Poland
- Guram Bezhanishvili, New Mexico State University, USA

Sponsors:
- Ivane Javakhishvili Tbilisi State University
- University of Salerno
- Kurt Gödel Society
